Discovery Site Evaluation Checklist.

To be completed by a member of WIDS Staff and included with the data package for a newly discovered potential waste management unit.

WIDS Site Names (Aliases): 200-W-212-PL, Encased Transfer Line from 240-S-151 Diversion Box, Lines V550, V551, V544, V546, V548, V549 1. Does the unit only receive uncontaminated rainwater runoff? If 1 is YES, check NOT A WASTE MANAGEMENT UNIT above and stop. If 1 is NO, go to 2. A 'YES' to any of Items 2 through 7 indicates the site is a waste management unit, as defined in Section 3.1 of the Tri-Party Agreement Action Plan. (Items 2 through 7 correspond with the six waste management unit types found in the Tri Party Agreement definition.) 2. Complete items 2.a through 2.f. to determine if the unit is a solid waste management unit (SWMU), as specified under WAC 173 303 040. 2.a. Is the material at the unit a waste (i.e., a regulated waste or a discarded material, including garbage, refuse, sludge, construction/demolition debris, industrial/sanitary wastewater or other discarded solid, liquid, semisolid, or contained gas)? If 2.a is NO, check NO for 2 and go to 3. If 2.a is YES, go to 2.b. 2.b. Is the waste from historical residential activities (i.e., not from industrial, commercial, mining, agricultural, or community activities)? 2.c. Is the unit an industrial wastewater point discharge permitted under the Clean Water Act (i.e., National Pollutant Discharge Elimination System permit)? 2.d. Does the waste consist only of source, special nuclear, or byproduct material regulated by the Atomic Energy Act? If 2.b, 2.c, or 2.d is YES, the site is not a SWMU. If so, check NO for 2 and go to 3. If 2.b, 2.c, and 2.d are all NO go to 2.e. 2.e. Was the waste placed in a discernable unit (i.e., a landfill, surface impoundment, land treatment unit, waste pile, tank, container storage area, incinerator, injection well, wastewater treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit; If 2.e is YES, check YES for 2 and go to 3. If 2.e is NO, go to 2.f.	WIDS Site Code: 200-W-212-PL		Waste Management Unit	X					
If 1 is YES, check NOT A WASTE MANAGEMENT UNIT above and stop. If 1 is NO, go to 2. A 'YES' to any of Items 2 through 7 indicates the site is a waste management unit, as defined in Section 3.1 of the Tri-Party Agreement Action Plan. (Items 2 through 7 correspond with the six waste management unit types found in the Tri Party Agreement definition.) 2. Complete items 2.a through 2.f. to determine if the unit is a solid waste management unit (SWMU), as specified under WAC 173 303 040. 2.a. Is the material at the unit a waste (i.e., a regulated waste or a discarded material, including garbage, refuse, sludge, construction/demolition debris, industrial/sanitary wastewater or other discarded solid, liquid, semisolid, or contained gas)? If 2.a is NO, check NO for 2 and go to 3. If 2.a is YES, go to 2.b. 2.b. Is the waste from historical residential activities (i.e., not from industrial, commercial, mining, agricultural, or community activities)? 2.c. Is the unit an industrial wastewater point discharge permitted under the Clean Water Act (i.e., National Pollutant Discharge Elimination System permit)? 2.d. Does the waste consist only of source, special nuclear, or byproduct material regulated by the Atomic Energy Act? If 2.b, 2.c, or 2.d is YES, the site is not a SWMU. If so, check NO for 2 and go to 3. If 2.b, 2.c, and 2.d are all NO go to 2.e. 2.e. Was the waste placed in a discernable unit (i.e., a landfill, surface impoundment, land treatment unit, waste pile, tank, container storage area, incinerator, injection well, wastewater treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit, waste recycling unit, or other physical, chemical, or biological			ı	t 🗌					
If 1 is YES, check NOT A WASTE MANAGEMENT UNIT above and stop. If 1 is NO, go to 2. A 'YES' to any of Items 2 through 7 indicates the site is a waste management unit, as defined in Section 3.1 of the Tri-Party Agreement Action Plan. (Items 2 through 7 correspond with the six waste management unit types found in the Tri Party Agreement definition.) 2. Complete items 2.a through 2.f. to determine if the unit is a solid waste management unit (SWMU), as specified under WAC 173 303 040. 2.a. Is the material at the unit a waste (i.e., a regulated waste or a discarded material, including garbage, refuse, sludge, construction/demolition debris, industrial/sanitary wastewater or other discarded solid, liquid, semisolid, or contained gas)? If 2.a is NO, check NO for 2 and go to 3. If 2.a is YES, go to 2.b. 2.b. Is the waste from historical residential activities (i.e., not from industrial, commercial, mining, agricultural, or community activities)? 2.c. Is the unit an industrial wastewater point discharge permitted under the Clean Water Act (i.e., National Pollutant Discharge Elimination System permit)? 2.d. Does the waste consist only of source, special nuclear, or byproduct material regulated by the Atomic Energy Act? If 2.b, 2.c, or 2.d is YES, the site is not a SWMU. If so, check NO for 2 and go to 3. If 2.b, 2.c, and 2.d are all NO go to 2.e. 2.e. Was the waste placed in a discernable unit (i.e., a landfill, surface impoundment, land treatment unit, waste pile, tank, container storage area, incinerator, injection well, wastewater treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit, waste recycling unit, or other physical, chemical, or biological									
If 1 is NO, go to 2. A 'YES' to any of Items 2 through 7 indicates the site is a waste management unit, as defined in Section 3.1 of the Tri-Party Agreement Action Plan. (Items 2 through 7 correspond with the six waste management unit types found in the Tri Party Agreement definition.) 2. Complete items 2.a through 2.f. to determine if the unit is a solid waste management unit (SWMU), as specified under WAC 173 303 040. 2.a. Is the material at the unit a waste (i.e., a regulated waste or a discarded material, industrial/sanitary wastewater or other discarded solid, liquid, semisolid, or contained gas)? If 2.a is NO, check NO for 2 and go to 3. If 2.a is YES, go to 2.b. 2.b. Is the waste from historical residential activities (i.e., not from industrial, commercial, mining, agricultural, or community activities)? 2.c. Is the unit an industrial wastewater point discharge permitted under the Clean YES NO Water Act (i.e., National Pollutant Discharge Elimination System permit)? 2.d. Does the waste consist only of source, special nuclear, or byproduct material regulated by the Atomic Energy Act? If 2.b, 2.c, or 2.d is YES, the site is not a SWMU. If so, check NO for 2 and go to 3. If 2.b, 2.c, and 2.d are all NO go to 2.e. 2.e. Was the waste placed in a discernable unit (i.e., a landfill, surface impoundment, land treatment unit, waste pile, tank, container storage area, incinerator, injection well, wastewater treatment unit, waste recycling unit, or other physical, chemical, or biological treatment unit)? If 2.e is YES, check YES for 2 and go to 3. If 2.e is NO, go to 2.f. 2.f. Is the unit the result of routine and systematic discharges (i.e., areas receiving NES NO) X	1.	Does the unit only receive uncontaminated rainwater runoff?	<u> </u>						
Tri-Party Agreement Action Plan. (Items 2 through 7 correspond with the six waste management unit types found in the Tri Party Agreement definition.) 2. Complete items 2.a through 2.f. to determine if the unit is a solid waste management unit (SWMU), as specified under WAC 173 303 040. 2.a. Is the material at the unit a waste (i.e., a regulated waste or a discarded material, including garbage, refuse, sludge, construction/demolition debris, industrial/sanitary wastewater or other discarded solid, liquid, semisolid, or contained gas)?
